#### Industry Overview

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises of commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities.

Today, India is one of the most vibrant global economies, on the back of robust banking and insurance sectors. The country is projected to become the fifth largest banking sector globally by 2020, as per a joint report by KPMG-Confederation of Indian Industry (CII).

Growing Demand

Rising incomes are driving demand for financial services across income brackets.

ADVANTAGE INDIA

Innovation

 India benefits form a lagge cross-utilisation of channels to expard reach of financial services.

Policy Support

- Government has approved new banking licenses and increased the FDI limit in the isnurance sector.
- Government approved 100 per cent FDI for insurance intermediaries.
- In insurance sector 49 per cent FDI is allowed.

Growing Penetration

• Credit, Insurance and Investment penetration is rising in rural areas. Moreover, the wealth management segment has witressed growing HNWI participation.

Accounting and finance are the languages of business. Organizations require professionals who understand these well and can contribute effectively to manage & control business. With the industry poised for growth, the demand for skilled professionals is also set to increase exponentially. Currently, most of the organizations are facing a dearth of candidates who are equipped with skills which can make them day 1 productive.

## Post Graduate Programme in Applied Finance & Accounts with GST

The field of accounting has seen constant technological and intellectual innovation in recent decades. The job market in the finance and accounts industry is on an upward swing, given an increasingly complex business environment with clients placing new demands on the profession.

The pressure to develop and maintain skills has never been greater as accountants move to fill the role of trusted business advisors. Apart from technical competence, professional knowledge and soft skills are extremely critical for ambitious commerce students.

With all this in mind, the Post Graduate Programme in Applied Finance and Accounts with GST is designed to get graduates skilled for the industry by making them productive from day 1. The programme prepares learners to be multi-faceted, modern Finance and Accounting professionals who have the attributes of managing application / technology orientation along with a sharp know-how of financial & accounting practices.

The learners also gain extensive hands-on skills on the most popular ERP package in India – Tally. ERP9 Release 6 as well as learn usage of business analysis tool MS-Excel while working on financial data.

#### Programme Content and Objectives

The design of the curriculum is path-breaking and includes several aspects, each one designed to build a strong foundation for the domain, and help learners gain an ability for constant learning, not just for their first job, but for life.

- Project-based learning helps the learners apply their knowledge into projects that simulate real-world situations.
- Objective-driven sessions constantly keep the learners and their mentor focused on the immediate task at hand while constantly ascending a well-defined spiral of learning.
